

ACSH in the Media: Nov. 2020

By Erik Lief — December 11, 2020

Of course, reports on the game-changing COVID-19 vaccines have been dominating the news, and the American Council has been busy responding to requests from media outlets across the country. In addition to providing interviews for print publications and radio talk-show hosts, our work and expertise has been featured in Op-Ed columns, as well as excerpted for science-based articles all over the web. Here are some of the places we've appeared in the month of November.

[National Review's Capital Matters](#) [2] — Late in November, a portion of an article written by Dr. Alex Berezow, our VP of Scientific Communications, offering whether the [COVID era will lead to the end of the GMO movement](#) [3], was excerpted in **NR's** *Around the Web* section. Here's some of it, and if you'd like to read the entire reference to ACSH, [it is here](#) [2]:

Americans love to hate Big Business, particularly Big Pharma and Big Ag. But when we need them to rescue us, we run to them for help. They usually deliver. Let's hope the new vaccines are so successful that they are able to end not only

the coronavirus but anti-GMO ideology, as well — in other words, wiping out two viruses at once.

Vaccines Are Close, But We'll Still Need Antiviral Drugs [4] — Dr. Josh Bloom, ACSH's Director of Chemical and Pharmaceutical Science, along with recurring co-author Dr. Katherine Seley-Radtke, wrote this Op-Ed that appeared in the *Duluth (Minn) News Tribune* on Nov. 17. It's just the latest opinion piece for this sought-after writing duo.

COLUMNS

Vaccines are close, but we'll still need antiviral drugs

Written By: Jonathan "Josh" Bloom and Katherine Seley-Radtke | Nov 17th 2020 - 2pm.

Although the clinical trials are not complete and there are still many questions to be answered, it is difficult not to be optimistic about Pfizer's new COVID-19 vaccine.

[4]

Health Expert: Distorted Picture of COVID in US [5] — It appears that the *New York Post* keeps an eye on what ACSH publishes, and occasionally shares it with its readers. On Nov. 8 the paper cited a portion of (and linked to) [an article written by Dr. Berezow about how the U.S. is faring with the pandemic](#) [6], relative to other countries.

[How to Avoid Germs When Thanksgiving Grocery Shopping](#) [7] —If *Reader's Digest* is part of your reading list, you'll find us there, too. Dr. Berezow's hand-sanitizing advice was highlighted in a Nov. 20th article.

Later in the month, ACSH was heard making (radio) waves on *Chicago's Morning Answer on AM560 WIND*. On Nov. 24th Dr. Berezow [discussed his COVID / Anti-GMO article](#) [3] on *The Dan Proft Show* [8].

PLEASE DONATE

As you can see, ACSH's presence and work is being felt far and wide. If you are a supporter of what we do, there is literally **no better time than right now** to help fund our cause. So, if you are at all able please consider donating. Even a small pledge will be enormously appreciated.

[Here's the link.](#) Thank you.

[9]

[What Comes Next When the COVID-19 Vaccines are Ready?](#) [10] — With the vaccines weeks away from reaching needy Americans, the *Washington Examiner* reached out to the American Council for expert commentary, which it printed in this article on Nov. 19.

Kirby Wilbur Radio Show — On [Nov. 19](#) [11] and [Nov. 24](#) [12], Dr. Berezow appeared on the Seattle-based talk show *Kirby Nation* on KVI, discussing two topics: Washington State's COVID-related restrictions (starting at 26:40); and the development of three, effective coronavirus vaccines (starting at 25:00), respectively.

[What is a Vaccine? Why Vaccines are Important and How Long They Last](#) [13] — An article on the basics of vaccinations, published on the website of *Business Insider India*, was reviewed and approved by ACSH.

[Colloidal Silver is Not Safe to Consume or Apply to Your Skin](#) [14] — A Nov. 7th article on *Business Insider India* on this topic also received ACSH's review and approval prior to publication.
