

# Vampires Like Flame-Resistant Vampire Costumes

*By ACSH Staff — October 29, 2015*

This Halloween, beware: Real-life vampires may dress up in their favorite costumes. The reason? They're flame resistant so you can't catch them on fire if their cover is blown.

But there is good news: If you or your child dress up in flame-resistant, you're safe from Fire Dracula: the type of vampire that sucks out your energy and turns you into flames!

So this Halloween, be safe. Be aware. Be flame resistant.
